

# ARENHA Project Final Workshop

Register [here](#) to attend online or in person

26th March 2025

Centro Nacional del Hidrógeno (Puertollano, Spain)

## Programme

9:00 - 9:25

Registration

---

9:25 - 9:30

Welcome

---

9:30 - 9:50

**ARENHA project: Main activities and Results**

J.L. Viviente (TECNALIA)

---

9:50 - 10:30

**Ammonia fueled SOFC and steam electrolysis with different SOEC prototypes**

Stefan Megel (FhG-IKTS) / Freddy Kukk (ELCOGEN)

---

10:30 - 11:00

**Green Ammonia Value Chains: Production and Applications**

Cheng Liang (Proton Ventures)

---

11:00 - 11:30

Coffee Break

---

11:30 - 12:00

**Ammonia Cracking using Advanced Membrane Reactors**

Aritz Arrizabalaga (H2SITE)

---

12:00 - 12:30

**Unlocking the Potential of Ammonia as energy vector in energy transition: Market Trends, and techno-economic assessment of ARENHA solutions**

Vito Verde (ENGIE) / Valentina Cechetto (TU/e)

---

12:30 - 12:45

Final questions and discussion

---

12:45 - 14:00

Tour to CNH<sub>2</sub> facilities

---

14:00

End of the Workshop

---

Funded by  
the European Union
